

ADRIAN BOHM PRESENTS

Australian Tour 2013

Foster & Allen – Ireland's most famous and successful duo are returning to Australia in May and June.

Mick Foster and Tony Allen have been performing together for over 30 years, and this will be their 17th trip to Australia.

These charismatic singers have been performing their unique blend of easy listening and folk music all over the world and their popularity is proven by their record sales. Between them they have sold 19 million records, making them one of Ireland's biggest entertainment exports, in the same league as U2, Enya, Boyzone and The Corrs.

Their 25 albums have included the immensely popular *The Rambles of Spring*, *A Bunch of Thyme*, *Maggie* and *After All These Years* and 100 Hit Legends. With this tour they will release *THE HAPPINESS OF HAVING YOU* being released on April 5 through Sony.

Formed in 1975, this most famous singing duo in Irish music history began working on the local music circuits of Ireland and England. Soon, with their own special brand of music, the duo became hugely popular. In the first year, Foster & Allen recorded their first single, *The Rambles of Spring* which was a massive hit on both sides of the Irish Sea.

Tony Allen was born in Mount Temple, Ireland, the youngest of nine children. His family loved music and encouraged Tony's interest in it from a very early age. In 1968, he turned professional, playing guitar and singing on a national level with many well-known Irish bands. He met Mick Foster in 1975 and they joined to form Foster & Allen.

Mick was born in County Kildare and began playing the piano accordion at age 13. In 1964, at 17, he won the first of three All Ireland Accordion Championships.

The Foster & Allen band accompanying them to Australia includes Moyra Fraser (keyboards), Ollie Kennedy (bass guitar) and Bryan O'Donnell (guitar).

After 34 years, their popularity continues to flourish and fans often travel long distances to catch their live performances.
